

NGUYEN XUAN KHANG

Junior IOS Developer | Male | 18/03/1993

Experience	1 year
Highest Education	Bachelors
Languages	Vietnamese – Native English – Intermediate
Email	3fmaster@gmail.com
Phone	0988891609
Address	Linh Xuân, Thủ Đức, TP.HCM

SUMMARY

I learned IOS from my brother, he worked as Senior IOS Developer. I have a strong background and understand object oriented programming and knowledge of design pattern such as MVC, Singleton, Delegation, Observer.

I am good skilled in the use of iOS technologies such as Interface Builder (Storyboard, XIB), UIKit, Core data, Auto layout, Core Location, iOS memory management and other iOS technologies.

I have worked with some third-party libraries such as AFNetworking, JSONModel. Beside that, I have experience in integrating restful API(Google API).

My greatest strength is that I am able to learn new technologies quickly. Besides, I can work under pressure and easily adapt to the new environment. My goal is improving my iOS Development skill.

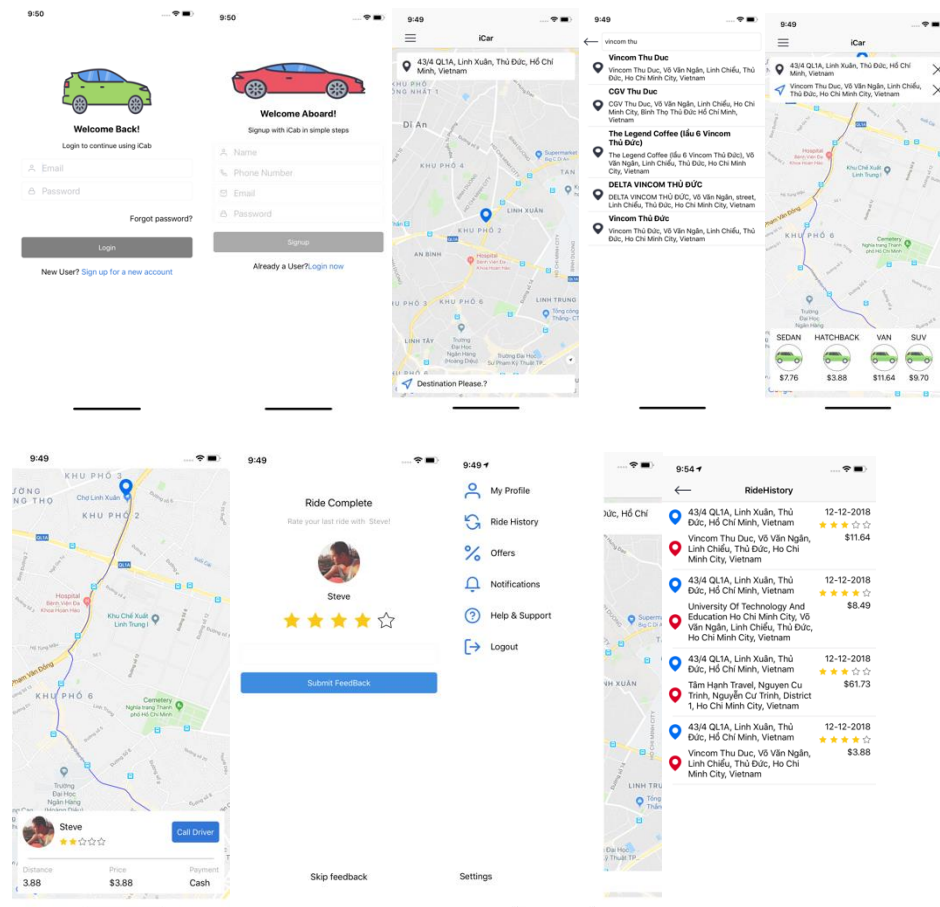

SKILL

- **Objective C**
- **Swift**
- **OOP**
- **Sqlite**
- **xCode**
- **Source Tree**
- **Cocoapods**
- **IOS Development**
- **Git**

EXPERIENCE

After learning IOS for 2 months, I started doing application rider app demo like Grab app. I researched and wrote this application for 6 months under the support of my brother. The application has some functions like login, register, get current location, choose pickup and destination, draw line from pickup to destination, save history...

- Tool Development: xCode
- Language Programming: Objective-C
- Third party Libs: AFNetworking, JSONModel
- iOS Technology: Auto Layout, Core data, UIKIT, Core Location
- Source code: <https://bitbucket.org/xuankhang03/icar>

EDUCATION

Information System

University of Technology – HUTECH

2019

Have basic knowledge of algorithm, data structure, database, OOP, programming language such as C/C++, C#
